**6.3.5 - Institutions Performance Appraisal System for teaching and non- teaching staff**

The principal and the HoD monitor the performance of the newly recruited teachers by directly interacting with them, gathering information relating to classroom situations and suggest changes, if necessary. The Principal orients them individually and explains

the role expected from them by the institution. The performance of the faculty is judged by their willingness to take up the responsibilities assigned to them. The projects undertaken by the teachers and their involvement in social development are some of the qualitative and quantitative parameters through which performance of the teacher is assessed.

The Government has prescribed a self-appraisal method of evaluation for career advancement to evaluate one's performance. The prescribed forms are filled in by the teachers that form the basis for performance appraisal. The teachers being punctual in attending meetings and classes, the pattern of availing leave facilities, the extra hours spent in the college relating to academic work and the degree of sacrifice are some of the parameters for performance assessment.

The principal and the HoD monitor the performance of the newly recruited teachers by directly interacting with them, gathering information relating to classroom situations and suggest

changes, if necessary. The Principal orients them individually and explains the role expected from them by the institution. The performance of the faculty is judged by their willingness to take up the responsibilities assigned to them. The projects undertaken by the teachers and their involvement in social development are some of the qualitative and quantitative parameters through which performance of the teacher is assessed.

The Government has prescribed a self-appraisal method of evaluation for career advancement to evaluate one's performance. The prescribed forms are filled in by the teachers that form the basis for performance appraisal. The teachers being punctual in attending meetings and classes, the pattern of availing leave facilities, the extra hours spent in the college relating to academic work and the degree of sacrifice are some of the parameters for performance assessment.
